Animal Spaces, Beastly Places: New Geographies Of Human-animal Relations

by Chris Philo; Chris Wilbert

This book explores the complex relations in which humans and non-human animals interact and relate. The contributors examine how animals and humans shape and are shaped by the physical and social environments they inhabit. The book covers a wide range of topics, including urban animal studies, animal geography, and the role of animals in cultural and social practices.

Keywords: Animal geography, human-animal relations, urban studies, animal studies.

The book examines how animals and humans shape and are shaped by the physical and social environments they inhabit. The contributors analyze the role of animals in cultural and social practices, and how urban studies and animal studies intersect.

Keywords: Animal geography, human-animal relations, urban studies, animal studies.
